

COMPANY PROFILE

Priti Impex

Stainless steel manufacturing for the thermoware industry.

Vasai, Mumbai | pritiimpex.in

ABOUT PRITI IMPEX

41 years in stainless steel

Priti Impex has spent more than 41 years in stainless steel, growing from a single cutting line into a dedicated processing plant for the thermoware industry. Today, over 150 clients across thermoware, utensils and industrial products count on us for material that arrives on spec, lot after lot.

Everything we supply is cut and finished in-house at our plant in Vasai. Circles, small circles, coils and sheets leave the floor checked, certified and on schedule.

41+

Years in stainless steel

150+

Clients served across India

3+

Industries: thermoware, utensils, industrial

WHAT WE STAND FOR

Mission, vision and a promise

OUR MISSION

To supply consistent, ready-to-run stainless steel with accurate gauge, clean edges and on-time dispatch, so our clients' production lines never wait on material.

OUR VISION

To be the most dependable name in stainless steel processing for India's thermoware, utensils and industrial products manufacturers.

“

We started 41 years ago with one cutting line and a promise: material that runs clean on the customer's press. Everything we've added since has served that promise.

FOUNDER, PRITI IMPEX

INFRASTRUCTURE

Built around circle production

Our plant in Vasai is built around circle production for the thermoware industry. Automatic and manual cutting lines run side by side, and press work happens in-house, so volume runs and quick-turn orders both ship on schedule.

5,000 sq. ft.

Plant area in Vasai

20+ people

Trained production team

MACHINERY

- 2 automatic circle-cutting lines (750 mm)
- 3 manual circle-cutting lines
- 4 small baby presses

QUALITY

A mill test certificate with every lot.

Gauge, finish and edge quality are checked before material leaves the plant, so what reaches your press is exactly what you ordered.

PAN-INDIA REACH

Serving manufacturers all across India.

From our plant in Vasai, material reaches thermoware, utensil and industrial products manufacturers nationwide. Dispatch is planned around your production schedule, not ours.

150+ clients across thermoware, utensils and industrial products
